### Foster Care A Survival Guide

Foster care is a system in which a minor has been placed into a ward, group home (residential child care community, treatment center, etc.), or private home of a state-certified caregiver, referred to as a "foster parent" or with a family member approved by the state. The placement of the child is normally arranged through the government or a social service agency.

Surviving severe COVID-19 means surviving viral sepsis. And while there is little published data on long-term outcomes of severe COVID-19, what is known is that recovering from sepsis caused by other pathogens is a long and difficult process that includes, among other things, increased odds of cognitive impairment and functional limitations—even down to inability to bathe, toilet or dress ...

### Sepsis survival has lessons for severe COVID-19 care ...

Total care is when a resident or patient requires a caregiver in order to have all their survival needs met, including ambulation, respiration, bathing, dressing, feeding, and toileting.. The term "total care" is sometimes incorrectly used in nursing homes and other similar facilities to refer to a patient who simply needs diaper changes, but is able to provide other care on his/her own.
