Advanced Manufacturing | Invest in Canada

Another problem was the time span required. VCs were willing to make the initial investments in these manufacturing firms, but the technology required time to be developed at scale, often two to four years. This would require additional investments, bringing the overall project beyond the average VC fund's life of seven to eight years.

Financing Advanced Manufacturing: Why VCs Aren't the ...

Today, the city is at the heart of the UK's largest manufacturing and advanced engineering cluster - the Northern Powerhouse and is the gateway to the North West, the rest of the U.K. and Europe.
