Leonard Euler (1707-1783) corresponded with Christian Goldbach about the conjecture now named after the latter. Here is one of the trickiest unanswered questions in mathematics: Can every even whole number greater than 2 be written as the sum of two primes? A prime is a whole number which is only divisible by 1 and itself. Let's try with a few examples: $4 = 2 + 2$ and 2 is a

The application of new materials for soil stabilisation is a growing field of study in recent years. In this work, the effect of two types of silica-based nanomaterials combined with binders (quicklime and cement) are studied to stabilise soils and form structural layers for rural and low volume roads. The physical and chemical properties of the materials have been determined, as well as the ...
