Jazz piano is a collective term for the techniques pianists use when playing jazz. The piano has been an integral part of the jazz idiom since its inception, in both solo and ensemble settings. Its role is multifaceted due largely to the instrument's combined melodic and harmonic capabilities. For this reason it is an important tool of jazz musicians and composers for teaching and learning jazz ...

Piano is a wonderful instrument, simply because it can be used in virtually any type of music. You hear pianos in classical music, country music, and it wouldn't be odd to hear a bit even in rap music. Many modern musicians (regardless of their genre) grew up playing piano, so a lot of them implement piano music in their music.

Digital Baby Grand Piano The digital piano is an adapted, more modern version of its acoustic counterpart. It produces sounds digitally (as its name suggests): when you press a key, the piano's electronic speakers will play back high-quality recordings that were previously taken from acoustic pianos.. There are three types of digital pianos: the grand piano, upright piano, and portable piano.
