Practical issues that are rarely discussed or focused upon in textbooks are highlighted in this book with detailed waveform analysis.

Practical Cardiovascular Hemodynamics : With Self ...

Objectives The purpose of this study was to optimize hemodynamic performance of valve-in-valve (VIV) according to transcatheter heart valve (THV) type (balloon vs. self-expandable), size, and deployment positions in an in vitro model. Background VIV transcatheter aortic valve replacement is increasingly used for the treatment of patients with a failing surgical bioprosthesis.

Valve Type, Size, and Deployment Location Affect ...

Chronic heart failure (CHF) reduces muscle blood flow at rest and during exercise and impairs muscle function. Using intravital microscopy techniques, we tested the hypothesis that the speed and am...
