What is the San Diego Quick Assessment? - Lexercise

While no single "test" can adequately capture that whole, complex picture, the San Diego Quick Assessment is one test that has stood up to examination by numerous researchers. Originally devised by Margaret La Pray and Ramon Ross and published in the Journal of Reading in 1969, SDQA is a list of words categorized by grade level.

San Diego Quick Assessment - Model Teaching

The San Diego Quick Assessment The San Diego Quick Assessment (SDQA) is a very easy reading assessment you can give your student or child to determine his/her reading level. You simply show your child a list of ten words and ask him/her to read them. You start with a list you know your child can read fluently (or at the beginning if you are unsure).

List One List Two List Three List Four

The San Diego Quick Assessment List is a very useful, quick way to determine a child's approximate instructional reading level. It is certainly not a substitute for giving an Individual Reading Inventory with its graded word lists and graded reading passages. However, if a reading teacher merely wants a very easy, quick estimation of a child's approximate instructional reading level, we have found it to be fairly useful for that purpose.
