Online Library Tina Bruce Theory Of Play

believes play to be “the highest form of learning and development in early childhood.” Sarah. This point is also sustained by the work of Moyles (1989) who maintains that play is vital for the growing child as it is an excellent learning medium.

The importance of play for the child's development

It used to be thought that children's dramatic play developed through similar stages to that of other forms of play: • Onlooker • Solitary • Parallel • Co-operative It has been shown that each of these types of play is evident at each stage of development and at some stages more of a particular style will dominate.
